CHAPTER 8  
THE LIMITS OF MEDICAL SCIENCE.  
HOSPITALS IN FIN DE SIECLE  
AMERICA

**TYPHOID FEVER AND JOHNS HOPKINS HOSPITAL, BALTIMORE, 1871**

"The subject of this title and reviews without regard to age, sex, or color who may require surgical or medical treatment, and the patient who is unable to pay for his services, shall be received into this hospital without charge; you will also provide for the reception of a limited number of patients who are able to make compensation for the space and attention they may require."  
Johns Hopkins, 1871

**ABSTRACT**  
The hospital offers a unique insight of Baltimore's Johns Hopkins Hospital, based on the hospital's early history. The hospital was founded in 1871, and the first patient was admitted to the hospital in 1871. Much has been written about the establishment, its initial years, and the hospital's early history. However, the hospital's early history is often overlooked. This abstract provides a brief overview of the hospital's early history, from its founding in 1871 to its current status as a leading medical institution. The abstract also discusses the hospital's early history, from its founding in 1871 to its current status as a leading medical institution. The abstract also discusses the hospital's early history, from its founding in 1871 to its current status as a leading medical institution. The abstract also discusses the hospital's early history, from its founding in 1871 to its current status as a leading medical institution.
